

RAK Ports Training Institute now offers the following training course:

Hydrogen Sulphide (H2S) Awareness

A 5 hour awareness course essential for people working in or around areas where H2S can be encountered.

It gives an understanding of the properties and hazards of H2S and how we detect and protect ourselves from it.

The course covers:

- *Properties and hazards of H2S*
- *Responsibilities of employer and employee*
- *Safe working practices*
- *Control measures*
- *Rescue and treatment for H2S exposure*

RAK Ports certification will be given upon successful completion of the training course valid for 2 years.

To enquire about course fees or to know more about the training and certification process and to see how we can help, please contact RAK Ports Training Institute on the following numbers or e-mail:
